

# Connecting Darwalla

DARWALLA GROUP

Special Edition - June 2017

**UPDATE**

## Allora Hatchery

*From Guy Holcroft – Livestock Manager*

On Thursday 1<sup>st</sup> June, a contingent of Darwalla staff met with Commonwealth Bank representatives to view the start of the construction process of the Hatchery at Allora. The hatchery site has been levelled and sub floor plumbing and electricals are being put in place. The piles for the concrete slab supports were in the process of being drilled in readiness to start concrete works.

In the next few weeks, concrete structures will be finalised and the buildings frames erected. In July, the first consignments of the Incubators will arrive and the install will begin. It is very exciting to see the fruits of many months of planning start to materialise.

We will keep you posted.

*"At Darwalla we grow quality chickens, our business, our customers business and above all else we grow our people"*
